CHILD.**

# Did you know...

Early reading supports **brain development:**

“Vital connections in the brain that form the basis of all future learning and intellectual ability are a direct result of stimulation a child receives very early in life. As parents talk, sing, and read to their children, existing **links among brain cells are strengthened and new links are formed.**”

- TeachReadingEarly.org

When you're finished reading, come to the library for your reward and a completion sticker to
